Department Head, Facilities

Methodist Hospital of Indiana, the largest hospital in the state of Indiana with 1,120 beds, is a national force in the health care field. We are currently seeking an experienced facilities manager to oversee the maintenance and service functions of our expanding facilities in Indianapolis.

This career position offers the experienced facilities professional the opportunity to:

- Direct supervision over 5 managers and indirect supervision of 150 employees
- Develop and implement strategic hospital-wide plans and policies
- Plan, organize and control the design, engineering and construction of all facility construction and renovation
- Report directly to the Senior Vice President of Hospital Operations

Coordinating the activities of Plant Operations, Biomedical Engineering, Design and Construction, Long Range Facilities Plan and Facilities cost centers, the Department Head of Facilities is an integral member of the Methodist Management Team.

To qualify, you must possess a B.A. or B.S. in Architecture, Construction or Engineering with 10 years of management experience in design and construction, facilities maintenance, and biomedical engineering in a healthcare or other institutional setting of similar size and complexity. A Master's degree in Engineering may be substituted for 5 years of management experience. Experience in working with and adhering to regulations concerning minority contractors required.

Methodist Hospital of Indiana offers an excellent salary and complete benefits package. For confidential consideration, forward your resume with salary history to: Methodist Hospital of Indiana, Attention: Barbara Hark, Department Head of Staffing, 1701 North Senate Boulevard, P.O. Box 1367, Indianapolis, IN 46206. Equal Opportunity Employer.
